Acoustics » Acoustic Baffles

Straight HD Baffle System offers 32 clean, prefabricated baffles with uninterrupted lines. Baffles press-fit into cross support notches. Install across ceilings, walls, or both.

- ✓ Acoustic
- ✓ Bleach Cleanable
- ✓ Easy Clean
- ✓ Easy Install

Description

Where architecture meets acoustic intent, **Zintra Baffle Systems HD** bring sculptural design to ceiling and wall applications. Flowing seamlessly from surface to structure, Zintra baffle designs transform noise control into a design feature—delivering bold, 3D forms that play with light, depth, and shadow.

Zintra Baffles HD are a prefabricated system that offer an innovative replacement to traditional mineral fibre lay systems. Available in full and Lite variations, each design includes 32 or 16 prefabricated baffles and ships with five 25mm notched aluminium tubes in a sleek black powder coat finish—also available in 12 vivid powder coat colors to complement any interior palette.

Zintra Baffles HDaren’t just sound absorbers—they’re architectural statements. Suspend them from ceilings, mount to walls, or create ceiling-to-wall transitions for continuous visual impact.

Straight is the essence of minimalism. With uninterrupted baffle lengths and no decorative cut-outs, this design delivers a clean, refined aesthetic—ideal for spaces seeking structure, rhythm, and clarity.

With superior NRC performance, Zintra’s vertical baffles present increased surface area to the room enhancing sound absorption. Combined with ready-to-install ease and a wide selection of designs, finishes and print options. Zintra Baffle Systems HD deliver flexible acoustic solutions ideal for large noisy spaces like education settings, commercial offices, hospitality venues, or public zones where atmosphere and performance must work in harmony.

Available in 6 designs.

Cove | Knotty | Live Edge | Stacked | Straight | Yin-Yang

All designs also available in a Lite version.

For spaces where illumination is as considered as acoustic performance, Zintra Baffle Systems HD Straight Lux integrates architectural lighting directly into the Straight baffle design.

Part of the Zintra Acoustic Lighting collection, each Lux system brings together sound absorption and overhead light within a single, resolved form — removing the need to layer separate acoustic and lighting solutions across the ceiling plane. The result is a ceiling treatment that performs acoustically, reads architecturally, and lights the space with intention.

Available exclusively in the Baffle Systems HD Straight design only.

How to Specify

1. Select Design
2. Select Zintra Colour

BAFFLE SYSTEMS HD STRAIGHT

Acoustics » Acoustic Baffles

Composition	Zintra Acoustic Panel - 95% Polyester + 5% PLA 12mm (1/2") -Density 2.4 kg /m² 0.5 lb/ft²
Sustainability	Zintra is made from 100% recyclable materials. • 60% post-consumer recycled content from PET bottles. • 35% pre-consumer recycled content from PET chips • 5% polylactic acid (PLA)
Dimensions	953mm (37.5") x 2743mm (108") x 75mm (3")
Fire Rating	ASTM-E84 – Class A classification AS ISO 9705 – 2003 – Group 1 classification EN-13501 – B-s2-d0 classification
Assembly & Delivery	Ships Flat Packed. Go to the Technical Documents and download the Installation Guide for more details.
Suggested Installation	Go to Technical Documents and download the Installation Guide for more details.
Care Instructions	Vacuum to remove dust. Dab Zintra with a damp clean cloth and mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. For difficult stains, use a solution of household bleach (10% bleach / 90% water). To remove the bleach, repeat using a clean, water dampened cloth, then pat dry. Always test in an inconspicuous area first and if you don't see the expected results, contact us.
Warranty	5-year warranty. Visit baresque.com.au/warranty for complete details.
Customisable	The Zintra Acoustic Solutions range is customisable to your project. Please get in touch with your local contact for details.
